

BORN IN AMERICA. BUILT TO LAST.

Unlike leading competitive models, InSinkErator® garbage disposals don't use permanent magnet motors - the type of motor commonly used in blenders and hairdryers. These disposals are built with heavy-duty Dura-Drive® induction motors, stainless steel lugs, and strong metal frames. We sweat the details so you can depend on reliable, long-lasting performance grind after grind.

THE ONLY DISPOSALS WITH INDUCTION MOTORS
INVENTED, DESIGNED & ASSEMBLED IN THE USA

**INSINKERATOR® IS AMERICA'S
#1 DISPOSAL BRAND***

* Based on import, export data and average unit sales; 2024.

FEATURES

Dura-Drive® Induction Motor

The long-lasting, Dura-Drive® induction motor features jam-busting torque to power through every day food scraps.

Rugged Construction

Galvanized steel grind components provide reliable, long-lasting performance.

3D Grind Zone

Specially engineered grind chamber that keeps food in the grind zone and directs water to rinse chamber walls clean.

Jam-Buster Wrench

A quick, effective tool included to help free simple jams.

Lift & Latch® Technology

Simplifies installation by eliminating the challenge of having to hold the disposal with one hand while adjusting the mounting ring with the other hand.

Assembled in USA

The ONLY garbage disposals invented, designed, and assembled in the USA

See how easy it is to install an InSinkErator® disposal with Lift & Latch® Technology
